SPINDLE COOLANT SF

Issue Number 2
02/06/2008

Machine Tool Coolant

DESCRIPTION

Castrol Spindle Coolant SF is a water based spindle coolant formulated to provide excellent corrosion protection, for extended service intervals.

APPLICATION

Castrol Spindle Coolant SF is a pre-mixed long life coolant providing low temperature protection, ensuring free circulation if the equipment is subjected to temperature extremes.

Castrol Spindle Coolant SF is a combination of carefully balanced corrosion inhibitors, that ensure optimum cooling and corrosion protection.

Mixing Spindle Coolant SF with different products may lead to loss of protection.

FEATURES

- ◆ Multi - Metal compatibility
- ◆ High performance corrosion inhibitors
- ◆ High thermal capacity
- ◆ Pre-Mixed, ready for use
- ◆ Boron and Silicate free

BENEFITS

- ◆ Suitable for use in cast iron and aluminium machines
- ◆ Excellent corrosion protection even in sensitive systems
- ◆ Ensures machines operate within temperature limits
- ◆ Dilution and mixing not required, ensuring optimum performance
- ◆ Prevents formation of deposits during service

Product Data

SPINDLE COOLANT SF

TYPICAL PHYSICAL CHARACTERISTICS

Appearance	Colourless mobile liquid
Relative Density @ 20°C	1.040
Refractive Index	18 - 20
pH	7.0
Pour point, °C	-15
